

Holm Oak Gardens, Swaffham Norfolk

Still under construction this is an example of a contract design and build by Clayland for local developers, Oakwood Property.

Holm Oak Gardens is tucked away along a private driveway and includes a total of six bungalows, each new home has an individual character with Norfolk brick and flint detail. The development offers three and four bedroom properties with a mix of design features. The development has been built to our exacting standards and to the latest energy efficiency regulations.

Building on our reputation for well designed new homes in Norfolk, Clayland has now developed to offer a complete range of services, we provide innovative and creative design solutions for any project, domestic or commercial. From initial planning and design, quantity surveying, right through to construction and completion. We will take care of all design, specification, administration, legislation, and more.

We will handle your planning application on your behalf, advising you on how best to put your case to planners. This is backed up with the very highest standard of AutoCAD technical drawings and technical data to ensuring all government legislation is adhered to.
